## The Garden Insects Formula

“If you want to avoid either being bitten, or finding worms in your fruits, you can use essential oils to ward off insects, in your gardens and terraces.

A blend of ten different plant species is active against most common garden insects and provides lasting protection.”

**Ingredients :** Essential Oils of Cedarwood, Citronella, Lavender, Lemongrass, Peppermint, Pine, Sage, Spearmint, Sweet Orange, Thyme.

**Garden Insects Formula**  
Essential Oils : Cedarwood, Citronella, Lavender, Lemongrass, Peppermint, Pine, Sage, Spearmint, Sweet Orange, Thyme

**Presentation :** 10, 15, 20, 30, 50 and 100 ml glass bottles.

**Shelf Life :** needs to remain tightly closed and stored away from light and heat. Best if used within 3 years after the manufacturing date printed on the label.

### Instructions:

In **spray** only, using the following dosage:

- **15 drops** of the Garden Insects Formula, to dilute in,
- **60 ml** (4 tbsp.) of alcohol, to dilute in,
- **4 liters** of water.

Be sure to follow each of those preparation steps, ensuring good dispersion of essential oils in your final blend. Agitate the container frequently.

Spray on affected plants as well as on the plants you want to protect. Do not hesitate to spray the mixture directly on the paths of insects, ants, etc. It is for you to claim your garden back from insects and other pests, indicating that they must stay further.

### Frequency of use:

This will vary depending on the results that you will see, depending on the kind of Insects you hunt, how present and numerous they are, frequency of rains, etc. These oils also have a lasting effect. You must observe and think.

However, the spraying technique allows you to act quickly and get almost immediate

results. A good practice of this method will allow you to properly protect your gardens and terraces, safely, and affordably.

### ***Precautions:***

Besides the described instructions, no special precautions are necessary, if it is to wash fruits and vegetables before eating them, as usual.

Concentrated or diluted product: do not ingest. Avoid contact with eyes and mucous membranes. Keep out of the reach of children.

### ***Tips about « sprays »:***

There are two ways to make sprays with essential oils. Read carefully.

***Sprays made with alcohol:*** the first step consists in thoroughly diluting the essential oils in pure alcohol, bought in pharmacy, or drugstore. The second step consists in adding this blend in the water contained in your vaporizer. Shake well. You do not have to use the vaporizer's content all at once. It can be stored, but you need to remember to shake the bottle before each use.

***Sprays made without alcohol:*** for single use only, you can prepare a spray with warm water, not boiling, in which you pour your essential oils. It is very important that you shake your container before and during use.

### ***Caution:***

Avoid spraying your preparation in the direction of another person or pet. Alcohol and certain essential oils are irritants.

Do not spray your essential oils towards a flame, especially if you used alcohol for their dilution.

Do not spray your essential oils on your food, or on pet food.

Avoid spraying water on wooden furniture, waxed, polished wood, etc. to avoid stains. If you often spray essential oils in your home, it is best to use distilled water or demineralized water, so as not to leave marks on your furniture, curtains, floors.
